

## Immigration Attorney Windsor

Immigration Attorney Windsor - Today there is increasing concern around privacy matters and the complexity of new privacy legislation. Individuals and organizations that develop or supply biotechnology or information technology have different legal requirements. So do individuals who rely on technology to secure a competitive advantage for their business, or just to function in daily operations. Our Technology, Privacy and Intellectual Property lawyers help clients in maximizing the use of intellectual property in their business operations. Our goal is to create value for our clients.

We offer a full range of legal services dealing with problems related to privacy technology, biotechnology and intellectual property from a local to an international basis. Our services comprise copyright, privacy, trade-marks, commercialization, domain names, e-commerce, intellectual property, information technology and operational matters.

Intellectual Property Assistance:

- Copyright
- Industrial Designs
- Licensing
- Trade Secrets
- Trade-marks

On an international, regional and national scale, we can help in obtaining, maintaining and enforcing intellectual property rights. We assist clients in the entertainment, automotive, telecommunications and manufacturing sectors.

Technology Assistance:

- e-commerce initiatives
- development, protection, licensing, distribution and sale of technology
- acquisition of technology

To both users and suppliers of technology, we advise a lot of venture capitalists and financial institutions in structuring loan transactions. We can likewise assist businesses with their confidentiality agreements, computer system and Internet usage policies, outsourcing arrangements, consulting agreements, source code escrow, employment agreements, strategic alliances and joint ventures.

Privacy Services:

We help organizations, employees, contractors and suppliers to ensure compliance with privacy legislation. We assist organizations with their personal information management systems: drafting comprehensive privacy policies and procedures; advising with respect to the use, collection and disclosure of personal information. We evaluate Privacy Impact for clients' organizations or businesses.
